Free Webinar: How to Quickly Start a T-Shirt Store Learn how to sell t-shirts without worrying about design, inventory, or shipping. What is a t-shirt mockup? A t-shirt mockup is a blank slate for designing a t-shirt with your own graphics, pictures, images, words, or branding. When you mock up a t-shirt, you create a design and put it on a virtual t-shirt so you and your customers can get an idea of what it will look like in real life. When you design your own shirt mockups, you might download a t-shirt outline and build your design within those confines. However, that requires knowing how to use a photo editor, as well as basic knowledge of apparel design and clothing photography. Luckily, those who don't have such skills can use t-shirt design templates and mockups, available online. They make the design process much easier.
